Dear *John*

What can I say, I'm absolutely delighted with the photo's and trigger unit and story, with your permission I would like to use some photo's and your story in a little article in the Gun Trade Association newsletter (restricted to the proper Gun Trade only).

This will enable me to receive more interesting information from any dealers who remember Dr. Jurek with affection.

I look forward to receiving the original price list so that I can take a copy and return it to you.

The cheque for the air pistol is in a separate envelope with the price list?

The trigger unit is typical of Dr. Jurek's work, a true craftsman and designer of his day.

The article will be a reminder to us how stupid politicians can be.

I will ensure you get a copy of all information and stories I receive, ideal for a nostalgia trip one winters evening with a hot mug of coco!

Best regards

**Chris Price
